Hi All,

I'm launching a new course on creating a website using Joomla in 1 Day. Before that I will be conducting a Free Webinar on the installation of Joomla and what kind of websites you can build with it. Feel free to Register for the Webinar and Free Joomla Guide at www.YourJoomla Training.com

Register for the Course and **Your Benefits** that you learn?

1. How to build a website that is worth **$1,000+** on the market
2. **How to create your business website from scratch without any programming knowledge**
3. How to create a Joomla! website that is Search Engine Optimized (SEO) using Joomla
4. **Discover the right plugins to enhance your Joomla! website**
5. How to collect useful data from your visitors to provide better services for them in the future. So, they will want to come back to you again and again!
6. **Learn at least one way on how you can make $$$ after acquiring this skill!**
